Wipes:
in the rubbish bin!

Grease, frying fat and oil:
in the grease recycling container!

Chemicals and paint (residues):
in the chemicals bin!

Medicines:
to the pharmacy!

Why practise good drain use?

Properly functioning drains are important for public health. Waste water in the drains is purified, so that it can go back clean into nature.

You can contribute to properly functioning drains and clean water by only using the toilet for what it's intended for: poo, wee and toilet paper!
